- Gained valuable experience working within a specific industry, applying learned concepts directly into relevant work situations.

SKILLS

- Strong organizational and time-management skills
- Exceptional communication and interpersonal skills
- Ability to work independently and as part of a team
- Capabilities to handle manifold tasks in pressured surroundings.
- Keen interest in Web Development.

PROJECTS

1. VIRTUAL RESTAURANT ORDERING PORTAL

- Moving on, this food ordering system project in Node.js primarily focuses on managing food orders. The system showcases all available food menus and carts, providing a comprehensive view for users.
- Additionally, it offers features for managing food items effectively. The project is divided into two main categories: User and Admin Panel. Within this web application, users can easily register and start utilizing its features. The system presents all available food menus, allowing users to effortlessly add items to their carts, streamlining the ordering process.

2. CAR WASHING MANAGEMENT SYSTEM

- We aim to become a pioneer in the car washing industry by prioritizing customer satisfaction, growth, innovation, and efficiency. These key elements will drive our success and establish us as a company that delivers exceptional value for money. Cool Service is the most trusted and reliable name in the industry.
- Our project is committed to continually offering the highest quality services, utilizing both skilled personnel and advanced technology. Its fully automated, featuring multiple stages of foaming, washing, drying, and brushing, ensuring a thorough and efficient cleaning process for our clients.

CERTIFICATIONS

NPTEL (Programming In Java)

This course aims to cover the essential topics of Java programming so that the participants can improve their skills to cope with the current demand of IT industries and solve many problems in their own field of studies.
